Easyboard
LET THE LEARNING BEGIN

Easy As...

1 Easy to learn

2 Easy to use

3 Easy to energize your students

Let the Learning Begin with the Easyboard® Interactive Whiteboard.

It's the newest, most robust and exciting digital interactive whiteboard available to teachers today. When connected to a computer and a data projector, the Easyboard interactive whiteboard becomes a large interactive projection screen and your lesson becomes an entertaining multimedia presentation! It's an integrated solution, combining state-of-the-art hardware with leading edge software, creating a powerful teaching tool.

It's an interactive whiteboard.
The comprehensive Easyboard Virtual Whiteboard software brings ideas to life! Write and draw over projected images, annotate in color, highlight, cut and paste images, and capture it all for future use or electronic distribution.

It's an information center.
Simply touch the Easyboard surface with the Multimedia Pen and run all computer functions, such as opening files, running digital video clips, or downloading free content from the Internet - from the front of the room. No need to return to your computer and lose the students' attention.

It's Classroom Tough®.
Made of a hard laminate, the Easyboard surface can take whatever your class can give it, virtually eliminating down time and inconvenience. And, it has a five (5) year warranty, with product registration.

The new Easyboard offers:

• Virtual whiteboard software for lesson plan development.

• Educational clipart library.

• The Floating Resource Toolbar provides a variety of teacher requested, easy to use presentation tools to bring focus and emphasis to any lesson. Annotation pens, Reveal and Spotlight or Screen Capture functions are activated by touching their graphic icon on the toolbar with the multimedia pen. Live annotations over any Windows program, documents, drawings and web pages are easy and can be saved for electronic distribution.

• An adjustable wall mount and mobile stand bracket, making height adjustments quick and easy.

• Multimedia digital pen for accuracy.

• Flexible electronics featuring both onboard USB and RS-232 connectivity.

• Free web-based instructor-led training.

• Free unlimited site licensed software.

More Reasons to Choose the Easyboard Interactive Whiteboard

- Designed to bring the benefits of the latest in interactive presentation technology to the average Windows user, without the need for a lengthy learning process.

- Virtual Whiteboard software. Capture written notes, drawings, and ideas in color instantaneously.

- Full mouse capabilities in the Multimedia Pen. With left and right mouse clicks on the pen you are always in control of your computer.

- Digital electromagnetic technology. Accurate and precise, the pen-tip is small so picking points is easier than with a larger pen or your finger.

- Natural writing style. We were taught to write using a pen, not our fingers. Easyboard interactive whiteboard offers the most natural, intuitive way to write!

- Brilliant image quality, high resolution—500 lines per inch.

- Five (5) year warranty with product registration (USA only).
